SISTEMA CARDIOVASCULAR

A detailed 3D medical illustration of a blood vessel, likely an artery, shown in a cross-section. The vessel is filled with numerous red blood cells, which are depicted as biconcave discs. Several white blood cells, shown as smaller, irregularly shaped cells with granular interiors, are also visible within the vessel. The vessel's interior is smooth and pinkish-red, while the surrounding tissue is a lighter, translucent pink.

KROMASOL

A stylized, handwritten-style signature logo in a light gray color, consisting of a series of fluid, connected strokes.

**POLINICOTINATO DE
CROMO**

PICOLINATO DE CROMO

A large, thick red 'X' is drawn over the text 'PICOLINATO DE CROMO', indicating that this term is incorrect or being crossed out.

A wide-angle photograph of an agave field. The foreground is filled with rows of agave plants, their long, pointed leaves creating a rhythmic pattern. A dirt path winds through the field on the left side. In the middle ground, a single, lush green tree stands out against the field. The background features a range of dark, silhouetted mountains under a heavy, dark blue sky with patches of lighter clouds. The overall color palette is dominated by blues and greens, with a high-contrast, cinematic feel.
